

Scalable Storage Competition

Scalable Storage Competition (SSC) - Unleash Your HPC Potential!

Join the Scalable Storage Competition (SSC) and take your skills in High-Performance Computing (HPC) and storage solutions to the next level!

Why participate?

- Gain hands-on experience with HPC systems and components
- Enhance your teamwork and problem-solving skills
- Network with peers and professionals in the HPC community
- Contribute to ongoing research
- Advance your knowledge in HPC and storage solutions

Who can participate

- Diverse mixed teams - Professionals, Phds, Students - are welcome

How it works:

- 10 storage / 24compute nodes are provided
- Set up a cluster and storage/file system of your choice
- Computations: run typical I/O benchmarks/applications
- Scenarios: run complex I/O heavy realistic scenarios, e.g. ML chains
- Provide documentation about your solution
- Get scored and ranked by our expert organizers

What you'll gain:

- Knowledge of storage solution capabilities in different scenarios
- Insights into I/O specific issues and solutions
- Opportunities for further research
- Potential knowledge about future procurement in the HPC community
- Valuable connections with peers and professionals in the HPC industry

Win trophies for your team and gain fame in the HPC community!
